### **Product Discontinuation Notice for PR Series NTC Thermistors**

Dear Valued Customers:

Littelfuse, Inc. would like to inform you of the discontinuation of the PR Series of NTC thermistors due to issues with manufacturability. This change is effective immediately. Unfortunately, due to the manufacturing issues, we cannot support any last time buy of these products. Any open orders currently in process will be processed and delivered according to the estimated delivery dates communicated for those orders.

Please see Appendix A of this letter for a list of part numbers being discontinued.

There are no direct replacement products with the same  $\pm 0.05^{\circ}\text{C}$  temperature accuracy (or other specified accuracy of less than  $\pm 0.10^{\circ}\text{C}$ , depending on specific part number) as previously offered by the PR Series of NTC thermistors. Recommended replacement products are the [PS Series](#) of NTC thermistors, which offer  $\pm 0.10^{\circ}\text{C}$  temperature accuracy, and the [PT Series](#) of NTC thermistors, which offer  $\pm 0.20^{\circ}\text{C}$  temperature accuracy.

This notification is for your information and acknowledgement. Please respond to us by **July 15, 2020** to acknowledge receipt and understanding of this discontinuation notice. If we do not hear from you by the above mentioned date, we will consider that this discontinuation notice has been accepted and no further action is required.

Should you have any questions or require additional information, please contact your local Littelfuse sales representative.

Sincerely,

Tim Patel  
Global Product Manager – Temperature Sensors  
Electronics Business Unit  
Littelfuse, Inc.
